TECHNICAL DATA SHEET
PRODUCT # NPP-46 – NYLON PEEL PLY

DESCRIPTION

NPP-46 is a high temperature, nylon fabric which is heat-set and scoured for stability in cure cycles up to 350°F. It is ideal as a release material used directly against a laminate or adhesive bond surface where a textured surface is required for subsequent processing. It is excellent for controlling adhesive squeeze-out.

PHYSICAL PROPERTIES

Fabric Weight: 1.90-2.05 oz/yd²

Fabric Construction (per inch): 104 ends (40 den) x 87 picks (70 den)

Thickness (inches): .004-.004

Manufactured in the USA.
