

## SHIPPING POLICY

In an effort to better serve our customers and to guarantee the correct handling of your time and temperature sensitive materials (TATS), Pacific Coast Composites will now only be working with select carriers and freight forwarders who are familiar with shipping the composite materials that we provide. Pacific Coast Composites has worked with these companies for many years and they are fully aware of PCC's quality and on-time delivery requirements.

If you have any questions or concerns, please don't hesitate to contact Customer Service 1-888-535-1810 or [orders@pccomposites.com](mailto:orders@pccomposites.com) for more additional information.
